Afram.h@hotmail.com Date

of birth: 11th Jan 1994

Profile: A student in TUC vocational college (yrkeshögskola) as a System Developer with a wide platform of IT knowledge. I am flexible, positive, accurate, social and have high personal integrity.

I would like to get a chance as a trainee in a unit (IT-security development, system/application testing units, Web application unit and Web design).

My goal now is to get the traineeship and continue my university study to shape my skills and become a high-performance programmer and to develop successful products in the future.

The trainee period that I am applying for is a full time work for 14 weeks.

I am a part of LIA (Lärande i arbete), Learning at work, you will find the link to it and to TUC here:

https://www.tucsweden.se/yrkeshogskola/vara-utbildningar/systemutvecklare-net-3/

Work experience:

2012 – 2014

Internetcafé Online

Assistance, helping customers to solve their technical issues with their laptops and some software issues as well regarding uploading, updating some programs and applications, solving the technical software problems for the computer devices.

Education:

2019-09-09 – Ongoing

TUC Sweden, Huskvarna, Jönköping

System Developer in C#

Education content:

- System Developer in C#
- Agile development methode & HTML.
- Architecture and Database Development SSMS (SQL).
- IT Security for developers.
- JavaScripts.
- Cloud Based Architecture.
- Ground Programming.
- Programmering .net, depth.
- Publishing Tools.
- Testing, Verification & Certification.
- Web Applications & Mobile Development.
- Web Design & User Experience.

2019-01-07 – 2019-05-28   -   Sweden

NTI- School.   Söderköping

"Vuxenutbildning" – Adult Education, Programming 1

2018-08-18 – 2018-12-18   - Sweden

Komvux.   Norrköping

Study Swedish as a second language and physics.

2017   -   Sweden

Hermods.   Norrköping

SFI-Level, Swedish Language in reading/ writing and talking.

2012-2013   - Syria

Mamoun university.

IT Telecommunication engineer.

Network, Programming Languages like Java, C#, C++, Signal Processing , Digital Communication, Space Communication, GSM System.

Languages:

Swedish: Good knowledge in reading / writing and speaking.

English: Good knowledge in reading / writing and speaking.

Arabic: Native

Other skills and competences:

SharePoint.

Microsoft Office.

Ready to provide when it is required.

Personal letter

Hey! My name is Afram Hanna, I am 25 years old and live in Jönköping. I am currently studying in TUC university as a system developer C # which it is a wide IT platform of Java scripts, HTML, CSS, Database SSMS (SQL) at TUC Sweden.

In my spare time, I usually read books that is related to programming and IT.

What I love about programming is that I get to solve problems and because I am fascinated about how to build up ex. websites and applications from the ground up to a complete result, I decided to go for this education and apply for this trainee period to develop my skills.

I am curious about learning new things and would like to spend extra time developing my abilities by devoting more time to self-study than is required of me.

When I was working in the coffee net, I helped the customers fix their problem on the computer. I helped many more than 300 users. And after this job and the motivation that I have after each software issue that I am excited to fix, I decided I would learn more about systems/applications and programming.

I am structured, positive and curious to ask questions and help people. It is also important to me that my colleagues feel a confidence in me and that is why I value my work highly and am committed to performing to the manager's expectations. I'm also not afraid to take my own initiative and I work effectively in teams, but also independently.

I want to thank you for taking the time to read my application and I hope to hear from you!

Sincerely,

Afram Hanna
